MÄTMAN G-2

Data logger for temperature and humidity measurement

Efficient and easy to use

Data logger for temperature or humidity measurement

Mätman G-2 is very affordable. It is the perfect tool for logging temperature or humidity. It is battery operated and has an integrated sensor for temperature or humidity. The logged results are easily saved to your computer and displayed on the screen. The results can also be printed.

Simple and comprehensive

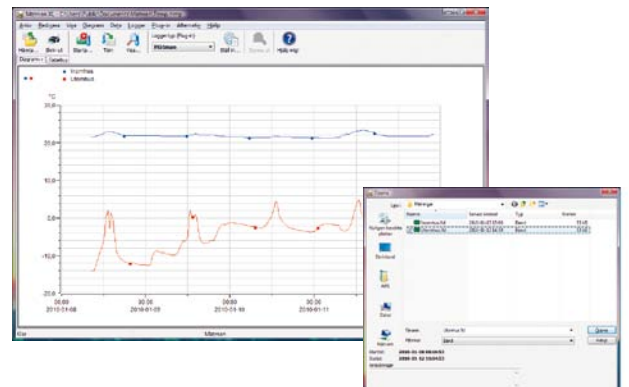

Mätman G-2 is very easy to use. It is a powerful and effective tool to monitor temperature or humidity in everything from real estate, food safety, laboratory environments to factories. Anywhere temperature or humidity monitoring is a must.

Mätman XL 4

Mätman XL 4 is the PC software that synchronises with Mätman G-2 to produce spreadsheets, etc. It represents the very latest in software technology, combining simplicity with high performance.

Mätman is small and works without an external power supply.

Measured results are presented clearly for easy and precise evaluation.

USB connection for fast synchronisation to the PC.

Property –

Record temperature or humidity relevant to real estate maintenance and administration.

Food –

Record temperature or humidity during storage / transportation of food.

Lab. medicine and industry –

Record laboratory measurements in environments where constant temperature or humidity is a crucial element of the work.

Technical Data Mätman G-2

Start / stop time is programmable, rolling memory or via the button.

The sensor can be calibrated with Mätman XL4 PC program.

High resolution, 0.025% of range.
12 bit A / D converter.

Measuring range temp: -35°C to +140°C
(with external sensor).

Measuring range humidity: 20% to 95% RH.

Also available with stainless steel penetration sensor for food.

Measurements are time/date/name stamped.

Log Interval adjustable from 1 sec to 12 hr.

Functions indicated via blinking LED.

Operating temperature of device itself:
-35°C to +70°C.

Battery life minimum 1 year. Easy to change.

Size: 42x97x26 mm.

Weight: 50g excluding sensors.

Mätman XL 4 PC program works with the entire range of Mätman loggers.
