

27320 DIGITAL CENTRAL CONTROL UNIT FOR SULZER TW11

These central control units are no longer available as spare parts.

They can be replaced with a central control unit with digital function.

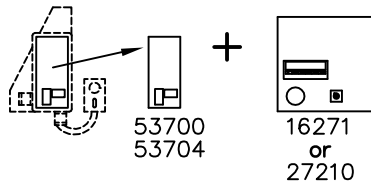

- Advantage of the digital system.
1. Less sensitivity for interference.
 2. Mixbox print compatible with Sulzer PU and upwards.
 3. Mechanically stronger central control unit.

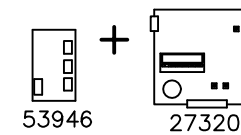

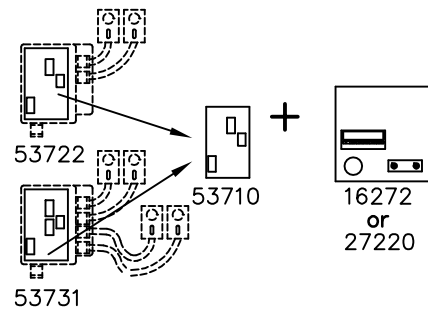

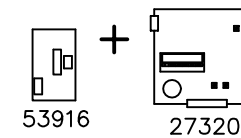

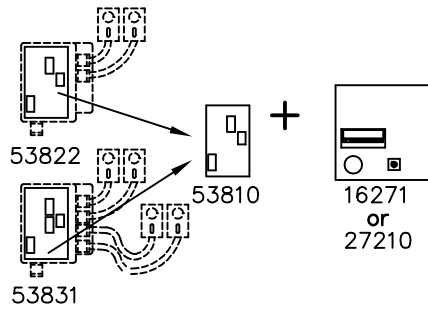

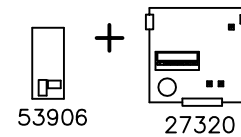

PARTS NEEDED FOR REPLACEMENT

When replacement is made the amplifier box print has to be replaced as well.

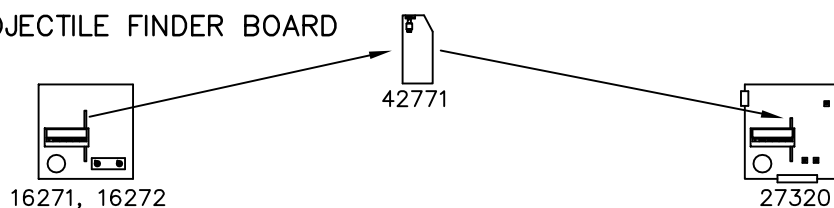

Old parts to replace

New parts needed

PROJECTILE FINDER BOARD

The projectile finder board 42771 on 16271 or 16272 can be moved and used on 27320.

SIGNAL GIVERS

The Signal Giver 5175X (type 2017) need not be replaced when the central unit is changed.

However: If replacing do not mix 5175X with 5170X Signal Givers on the same machine.

Advantage of new Signal Giver 5170X:

- * Stronger mounting
- * Oil resistant
- * Smaller dimensions
